### Do you know TED?

#### "What's TED?"

We're glad you asked. *TED* is *The Editor's Desk*, part of the BLS Website. *TED* is a daily source of fascinating facts and interesting information from BLS.

Each business day, *The Editor's Desk*:

- brings you fresh information from all over BLS
- highlights intriguing BLS data that you might otherwise miss
- focuses on one or two specific points, rather than presenting a general summary
- provides links to further analysis
- gives you a way to send us your feedback

We think that if you give *The Editor's Desk* a few minutes a day, within a week you'll sound pretty clever about economics, within a month you will be extremely well-informed about the economy, and within a year you will be broadly educated in economic statistics and labor economics.
